Acknowledgements

The Harmonized Health Facility Assessment (HHFA) modules and resource package are a key deliverable of the Health Data Collaborative Facility Surveys Working Group. The modules provide a harmonized approach to health facility assessments/surveys, building on existing internationally tested tools, such as the World Health Organization (WHO) Service Availability and Readiness Assessment (SARA), the United States Agency for International Development Service Provision Assessment (SPA) and the World Bank Service Delivery Indicators (SDI), and as well as consolidating best practices and lessons learned through implementation in many countries.

Overall guidance for the development of the initial version HHFA modules was provided by the Health Data Collaborative Facility Surveys Working Group. Kathryn O'Neill, Amani Siyam and Kavitha Viswanathan coordinated the development of the initial version. Wendy Venter coordinated the revisions of the modules, and the development of the HHFA resource package with technical support from the Johns Hopkins Bloomberg School of Public Health. Substantial technical contributions to the resource package were made by Eman Aly, Yolanda Barbera, Sandro Colombo, Benson Droti, Nancy Fronczak, Sherrell Goggin, Fern Greenwell, Geoff Greenwell, Jaya Gupta, Heidi Johnston, Shannon King, Hillary Kipruto, Benito Koubemba, Davy Audrey Liboko Gnekabassa, Geoffrey Lutwama, Boniface Muganda, Timothy Robertson, Ashley Sheffel, and Moussa Traore. Technical inputs concerning guidelines, service standards, measurement methods and indicators were provided by multiple WHO technical programmes and regional offices as well as other agencies within the health sector.

The ministries of health of Burkina Faso, Kenya, Liberia, Malawi and Zambia are gratefully acknowledged for assistance in testing the implementation of the HHFA modules and resource package.

The HHFA modules and resource package were produced with the support of grants from Bloomberg Philanthropies Data for Health Initiative; Gavi, the Vaccine Alliance; The Global Fund to Fight AIDS, Tuberculosis and Malaria; the Susan T. Buffett Foundation; the Kingdom of Saudi Arabia; the Norwegian Agency for Development Cooperation (Norad); and the Canada Department of Foreign Affairs, Trade and Development (DFTAD).

HHFA overview

The Harmonized Health Facility Assessment (HHFA) is a comprehensive, standardized health facility survey that provides reliable, objective information on the availability of health facility services and the capacities of facilities to deliver the services at required standards of quality.

Availability and quality of health services are integral to achieving universal health coverage (UHC) and the health-related Sustainable Development Goals (SDGs). HHFA data can support health sector reviews and evidence-based decision-making for strengthening country health services. Developed through multistakeholder collaboration, the HHFA builds on previous and existing global facility survey instruments, is based on global service standards, and uses standardized indicators, questionnaires, data collection methodologies and data analysis tools.

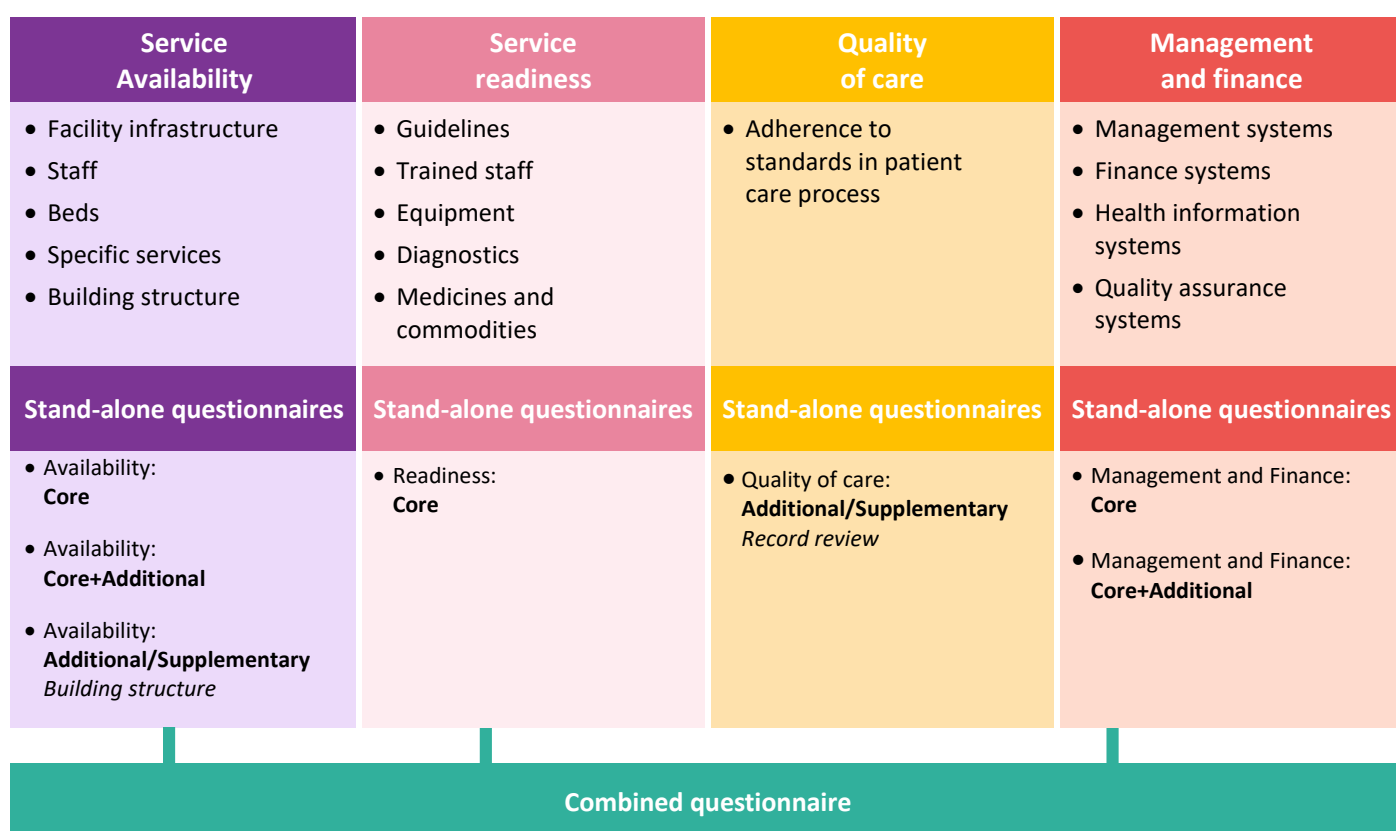

HHFA content

The HHFA covers all key facility services and facility-level management systems. The HHFA content is organized into **four modules**: service availability; service readiness; quality of care; and management and finance.

A module represents a set of questions (in questionnaire format) for a main topic area. Countries may choose to implement any single module or a combination of modules. Core questions represent the recommended minimum information, while optional additional questions provide further details. All questions must be linked to defined indicators. Various questionnaire options are available (refer to Fig. 1).

Each HHFA module includes a set of stand-alone questionnaires that may be designated Core, Core+Additional and/or Supplementary. The Combined questionnaire contains questions from multiple modules, integrated and organized to facilitate data collection. The questionnaires can also be adapted to country needs. All the HHFA questionnaires are programmed into the HHFA Census and Survey Processing System (CSPro) electronic data collection tool. Data collectors use this tool to collect the HHFA data on handheld devices such as mobile phones or tablets.

Fig. 1 HHFA modules and questionnaires

HHFA resource package

The HHFA resource package is a comprehensive set of downloadable tools and guidance to support countries in planning and implementing an HHFA. The resource package includes: HHFA Indicator inventory platform, Questionnaires, CSPro tool, Data analysis platform, Comprehensive guide, Quick guide, Data manager guide, Training resources, and Global archive. The HHFA resource package is available at:

<https://www.who.int/data/data-collection-tools/harmonized-health-facility-assessment/introduction>

HHFA questionnaire structure

An HHFA questionnaire is organized into sections and subsections that contain questions related to a specific service aspect or programme. The paper questionnaire is typically structured into five columns:

Column 1: Mod

Column 2: No.

Column 3: QUESTION

Column 4: RESPONSE

Column 5: SKIP

SECTION 17. SERVICES FOR SPECIAL NEEDS				
Mod.	No.	QUESTION	RESPONSE	SKIP
		17.1. PALLIATIVE CARE		
		17.1.1. SERVICE AVAILABILITY		
R_C	1700	Does this facility offer any palliative care services?	YES 1 NO 2	→ Q1706
R_C	1701	Which of the following palliative health services are offered in this facility:	YES NO	
R_C	01	Inpatient palliative care	1 2	
R_C	02	Outpatient palliative care	1 2	
R_C	03	Home care for palliative care	1 2	
R_C	04	Linkages with other organizations providing home-based palliative care	1 2	
	1702	ASK TO BE SHOWN THE LOCATION IN THE FACILITY WHERE PALLIATIVE CARE SERVICES ARE PROVIDED. FIND THE PERSON MOST KNOWLEDGEABLE ABOUT PALLIATIVE CARE SERVICES IN THE FACILITY. INTRODUCE YOURSELF, EXPLAIN THE PURPOSE OF THE SURVEY AND ASK THE FOLLOWING QUESTIONS.		
		SUPPORT FOR QUALITY SERVICES		
R_C	1703	Are national guidelines for palliative care services available in this service site today? [COUNTRY ADAPT – NAME OF DOCUMENT AND VERSION] IF YES, ASK: May I see the guidelines?	YES, OBSERVED 1 YES, REPORTED NOT SEEN 2 NO 3	

- **Column 1 - Mod:** The first letter in Column 1 shows the module to which the question belongs: A for Availability, R for Readiness, M for Management and finance, or Q for Quality of care. The second letter (after the underscore symbol) denotes the kind of question: C for Core or A for Additional.
- **Column 2 – No:** Column 2 contains the number of the HHFA question. There may be a single number per question, or a main number with sub-questions below it, e.g., Q1701 (main question), Q1701_01 (sub-question). (Note that for some rows, the number corresponds to an instruction rather than a question, e.g. Q1702.)
- **Column 3 - QUESTION:** Column 3 contains the question that is read to the respondent by the interviewer. It may also contain additional clarifying information (in non-capitalized font) that the interviewer reads to the respondent. This column may also include instructions (in CAPITALS) to the interviewer. (These capitalized instructions are not read to the respondent.)
- **Column 4 - RESPONSE:** Column 4 contains the response options. Different types of response options are used for different types of questions, e.g., pre-coded responses where one or more options are selected, fields requiring entry of a number or text, or combinations of these.
- **Column 5 - SKIP:** This column contains arrows that instruct the interviewer to skip to a specific question, to the end of a section, or to other instructions, if necessary.

The questionnaires also contain sentences in capitalized red font that include the term “**COUNTRY ADAPT**”. These sentences highlight questions that may need adaptation to the country context before the questionnaire is finalized for country implementation.

Note that the HHFA paper questionnaires are used mainly to review questions during the country questionnaire adaptation process as part of HHFA planning. The CSPro tool is then adapted based on the final country-adapted questionnaire.

Sample HHFA consent form [COUNTRY ADAPT]

The [survey manager and survey implementer] in close collaboration with the [other relevant entities] are conducting a survey to collect information about the availability of key services in health facilities. This information will be collected in selected primary health care facilities and hospitals across the country. The survey is part of the [government's] ongoing efforts to understand what services are being offered, where they are being offered and how they are being offered. Information obtained through the survey will be used to support improvements in health services in [country name].

The survey will be conducted across the country on a sample of health facilities. The facilities included in the survey were selected randomly from a list of all facilities.

As the in-charge of this facility, we are asking you to help us to collect the information from the persons who are most knowledgeable about the services. For any questions we ask, if there is another person who is in a better position to provide details, please feel free to refer us to that person. We will want to speak with persons familiar with the various outpatient services, delivery services, surgical services, and emergency services, if these are offered, so that we can correctly identify the components of these services that are offered in this facility. We will also need to speak with persons familiar with the laboratory and pharmacy, as well as facility management aspects such as governance, finance, human resources, and health information systems. [TEAM LEADER SHOWS QUESTIONNAIRE TABLE OF CONTENTS] We will also ask the persons to show us specific areas of the facility, as well as specific documents and items of equipment and medicines.

We anticipate that the time required from an individual respondent to complete data collection from a service site may take from 5 to 30 minutes, depending on how busy each separate site is.

Your participation in this survey is voluntary and at no cost to you as an individual. You may choose not to participate at all or to stop at any time before the end of the survey. You may also choose not to answer any question about which you do not feel comfortable.

The information obtained from this survey will be shared with the Ministry of Health (MOH) and other relevant stakeholders who support the MOH, to provide information for planning purposes. The names of respondents will not be shared.

In case you have any question(s) about this survey at any time, please feel free to contact any of the following people:

[LIST NAMES AND PHONE NUMBERS OF SURVEY MANAGEMENT PERSONS WHO CAN BE CONTACTED]

At this point, do you have any questions about the survey? Do I have your agreement to proceed?

Signature of team leader indicating informed consent was read and agreed by the person in-charge/acting in-charge

Signature of facility staff authorizing data collection and position of the person providing authorization

		4. FACILITY BEDS AND ISOLATION UNITS		
		4.1 FACILITY BEDS		
A_C	i400	Now I would like to ask about facility beds used for overnight care or for inpatient care. If someone else in the facility is more familiar with the topic, please tell me so that we can arrange for me to talk with them.		
A_C	401	Does this facility have any adult-size inpatient beds? (This includes beds for overnight observation of patients in the emergency unit, as well as intensive care unit beds. This excludes delivery beds/tables, surgical tables, recovery trolleys, emergency room stretchers, beds for same-day care, beds smaller than adult size (infant cots and paediatric-size beds), and beds in wards that were closed for any reason.)	YES 1 NO.....2	→ Q405
A_C	402	What is the total official number of authorized adult-size inpatient beds (official bed capacity) of this facility? (Use the same inclusion and exclusion criteria as in the previous question)	NO. OF AUTHORIZED ADULT INPATIENT BEDS — — — — ZERO AUTHORIZED ADULT INPATIENT BEDS.....0000 DON'T KNOW.....9998	
A_C	403	What is the total number of actual adult-size overnight/inpatient beds in this facility?	NO. OF ACTUAL ADULT OVERNIGHT/INPATIENT BEDS — — — — ZERO ADULT BEDS FOR OVERNIGHT/INPATIENT CARE .. 0000	→ Q405
A_C	404	Of the total adult-size overnight/inpatient beds reported in the previous question, how many of the following dedicated bed types does this facility have:	NO. OF DEDICATED BEDS ZERO DEDICATED BEDS	
A_C	01	Maternity beds (excluding delivery beds/tables)	— — — 000	
A_C	02	Surgical beds	— — — 000	
A_C	03	Psychiatric beds	— — — 000	
A_C	04	Emergency unit beds	— — — 000	
A_C	05	Intensive care unit (ICU) beds	— — — 000	
A_C	06	High-dependency beds (for more frequent care than in general wards, but less than in ICU)	— — — 000	
A_C	405	What is the total number of actual paediatric-size overnight/inpatient beds (smaller than adult-size beds) and infant cots in this facility (excluding neonatal cots)?	NO. OF PAEDIATRIC BEDS/COTS — — — ZERO PAEDIATRIC BEDS/COTS.....000	→ Q407
A_C	406	Of the total paediatric-size beds and infant cots reported in the previous question, how many are dedicated paediatric ICU beds/cots?	NO. OF PAEDIATRIC ICU BEDS/COTS — — — ZERO PAEDIATRIC ICU BEDS/COTS.....000	
A_C	407	What is the total number of actual neonatal cots in this facility?	NO. OF NEONATAL COTS — — — ZERO NEONATAL COTS000	→ Q409
A_C	408	Of the total neonatal cots reported in the previous question, how many are dedicated neonatal ICU cots?	NO. OF NEONATAL ICU COTS — — — ZERO NEONATAL ICU COTS.....000	
		4.2 PATIENT ISOLATION ROOMS AND BEDS		
A_C	409	Does this facility have any specific units or dedicated rooms where patients requiring isolation are placed?	YES1 NO.....2	→ END OF SECTION
A_C	410	What types of isolation rooms or units does this facility have? ASK FOR EACH OF THE FOLLOWING AND INDICATE NUMBER OF BEDS FOR EACH SITUATION.	(A) ISOLATION SITUATION EXISTS YES NO (B) NUMBER OF BEDS	
A_C	01	Dedicated inpatient room/ward/unit for isolation	1 → B 2 → 02 — —	
A_C	02	Dedicated room in the outpatient service area for isolation	1 → B 2 → 03 — —	

Module	No.	Question	Response			Skip
A_C	03	Dedicated room in the emergency service area for isolation	1 → B	2 → 04	— —	
A_C	04	Room that can be used for isolation but that is not dedicated for this purpose	1 → B	2 → Q411	— —	
A_C	411	Is the number of isolation rooms and beds in this facility considered adequate to meet potential future needs?	YES 1 NO 2 DON'T KNOW 8			

Module	No	Question	Response	Skip
		13. OUTPATIENT SERVICE CONDITIONS		
		13.1. SERVICE AVAILABILITY		
A_C	1300	Are any outpatient services offered?	YES..... 1 NO 2	➔ END OF SECTION
A_C, R_C	i1301	ASK TO BE SHOWN THE GENERAL OUTPATIENT SERVICE SITE IN THE FACILITY. FIND THE PERSON MOST KNOWLEDGEABLE ABOUT THE GENERAL OUTPATIENT SERVICE ORGANIZATION. INTRODUCE YOURSELF, EXPLAIN THE PURPOSE OF THE SURVEY AND ASK THE FOLLOWING QUESTIONS. First, I would like to know about the hours that this facility provides outpatient services and the infrastructure conditions that exist for outpatient services. IF OUTPATIENT SERVICES ARE OFFERED IN DIFFERENT BUILDINGS, PROVIDE THE RESPONSE THAT REFLECTS WHERE GENERAL CURATIVE CARE SERVICES FOR ADULTS ARE PROVIDED.		
A_C	1302	On average, how many hours per day is this facility open for outpatient services (i.e. non-emergency services)?	4 HOURS OR FEWER 1 5–8 HOURS 2 9–16 HOURS 3 17–23 HOURS 4 24 HOURS 5	
A_C	1304	On average, how many days per week is this facility open for non-emergency outpatient services?	DAYS PER WEEK OPEN FOR NON-EMERGENCY SERVICES ____	

Module	No.	Question	Response	Skip
		21. IMMUNIZATION SERVICES		
		21.1. SERVICE AVAILABILITY		
A_C	2101	How often does this facility offer all infant and child immunization services at the facility?	DAILY 1 WEEKLY 2 MONTHLY 3 QUARTERLY 4 NEVER 5 OTHER 6 (SPECIFY)	
A_C	2102	How often does this facility offer all infant and child immunization services as outreach to other locations?	DAILY 1 WEEKLY 2 MONTHLY 3 QUARTERLY 4 NEVER 5 OTHER 6 (SPECIFY)
